

Dear Rising 5th Grade Parents,

It is hard to believe another year has flown by and it is summer again already! In order to begin 5th grade on a successful note, we feel it is important that the skills learned in the fourth grade be reinforced over the summer.

Summer is mostly about relaxing, enjoying the sun and water, and spending time with family and friends. Make this your priority, but also set aside some time to keep those skills sharp so that everyone is ready when we see you back in August!

### **Required**

Math:

- ★ Practice the basic addition, subtraction, multiplication, and division facts. **Each student will be assessed in August for basic fact fluency. Students should be able to do 50 questions in 2 minutes.**
- ★ Complete the Math Summer Work packet.. This review of math concepts was chosen to compliment the math curriculum and to review skills learned in fourth grade. Please do your best!

Reading:

- ★ Required Summer Reading Book List - see the attached list for reading requirements.

### **Recommended:**

Science:

- ★ Learn about the Atlantic Ocean and some of its habitats.
- ★ Explore the world around you! Think about and discuss the natural resources that you see this summer. Examine weather patterns in the summer months. Research various rocks and minerals that you find while you're out playing.

Writing:

- ★ Keep a summer journal using your best handwriting. Summer is a great time to work on your penmanship.
- ★ Practice your grammar skills using pages from the Shurley workbook.

Social Studies:

- ★ Learn about our great country, America; watch documentaries, enjoy the History channel, read historical fiction novels or biographies.

Sincerely,

Your Fifth Grade Teachers
